Rotary Drilling

Windowless Sampling

Jackson Drilling believe in promoting a positive health and safety culture. All site staff hold cscs cards.

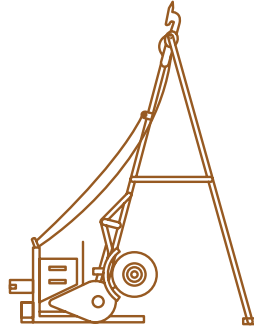

Site Investigation

About our rigs

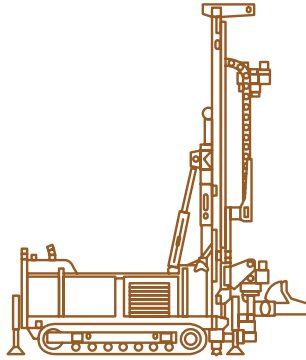

Cable Percussion

- ▶ Mobilised to site behind a 4x4.
- ▶ SPT, U100 and UT100 tests can be undertaken.
- ▶ Cost effective method of drilling.
- ▶ Range of casing sizes available – 150, 200, 250 and 300mm diameter.
- ▶ Disturbed, undisturbed and bulk samples can be retrieved.
- ▶ CSCS and NVQ level 2 qualified drill crews.
- ▶ Instrumentation can be installed in boreholes upon completion.
- ▶ JD's cutdown rig is capable of drilling in an area of 3.30m(l), 1.65m(w) and 2.40m(h). Electric motor available.

Cable Percussion is a cost effective method of drilling. Jackson Drilling are able to drill diameters of 150-300mm.

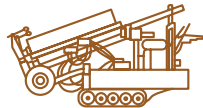

Rotary Drilling

- ▶ Mobilised to site on a trailer behind a 4x4, on a rigid beavertail truck or on an articulated low loader.
- ▶ SPT's, U100 and UT100 tests can be undertaken.
- ▶ Dynamic sampling and rotary coring 76-116mm diameter.
- ▶ Samples are recovered in rigid plastic liners.
- ▶ Full interlocking guards on all rotary rigs.
- ▶ CSCS and NVQ level 2 qualified drill crews.
- ▶ Instrumentation can be installed in boreholes upon completion.
- ▶ Capable of drilling in Geobor S, ODEX, Hollow Stem and Flight Augers.

Jackson Drilling boast a fleet of 10 rotary rigs from 900kg to 14T in mass, we have a rig suitable for all jobs. Our flagship Fraste XL Max 170 rig features a rod handling system which reduces manual handling.

Windowless Sampling

- ▶ Mobilised to site in a panel van or on a trailer towed by a 4x4.
- ▶ SPT, U100, UT100 and dynamic probing tests can be undertaken.
- ▶ Capable of windowless sampling.
- ▶ Samples are recovered in a rigid plastic liner.
- ▶ Suited to sites where access is restricted.
- ▶ CSCS and NVQ level 2 qualified drill crews.
- ▶ Instrumentation can be installed in boreholes upon completion.
- ▶ Rig can be remotely operated
- ▶ Handheld windowless sampling can be utilised for limited access sites

Our range of services also include Concrete Coring and Hand Pitting. JD staff have qualifications in the following; CSCS cards, PTS and NVQ Level 2 in Land Drilling.
